- : Working temperature -10°C -60°C
- : Mortise lock type - European, -ANSI with panic function
- : Applicable for exterior doors

SYSTEM COMPONENTS

Philips MiFare cards (chips) - offers very reliable and convenient to use. The card has an extremely long life compared to magnetic and other contact cards. Possibility of custom printing.

Control utility software - offers all the necessary functions for managing the card system. It offers the possibility of connection with the hotel PMS system. It can be installed on regular new and existing PCs.

Contactless card editor - offers the possibility of editing or reading contactless cards. Very simple operation. USB connection without the need for external power. Maximum of 99 card editors in one system.

Reading card - a special reading card allows information on the last 1000 uses to be read from the lock (user, date, time)

SPECIFICATIONS

Power supply:	4 x standard AAA alkaline batteries
Audit record:	1000 recent records
User:	Master / Regular user
Cleo ready:	Mobile key & online access control
Compatibility:	Hotek SMART and CLASSIC platform
Recognition speed:	≤1s
Material:	Stainless steel + Plastic
Emergency power port:	Standard USB
Safety:	Anti-panic function
Design:	Hidden cylinder
Normy:	EN 1634-1:2014
Durability:	RFID cards insensitive to magnetic fields
Color:	Chrome (SS) / Black (G)

FUNCTIONS

- Free doorknob function: external doorknob free until an authorized NFC card is used memory of history of passes (last 1000 records)
